# ENGINEERED FLOORING

PRODUCT DETAILS &  
INSPIRATIONS

European Oak, Engineered, Herringbone

## ABOUT US

Arta floor's core values have roots in forming relationship between fine craftsmanship and detailed design. The word 'arta' means pure in ancient languages which perfectly captures our passion and endeavour to deliver pure and humble value to the industry. Our founders have strong backgrounds in working with wood and delivering unique spaces.

## OUR PRODUCTS

Laminate Flooring  
Engineered Flooring  
Bamboo Flooring  
Vinyl & Hybrid Flooring  
Carpet Tiles

## ENGINEERED FLOORING

Engineered Flooring has a layer of natural timber on top and many protective engineered layers beneath. It has the same luxurious look and feel as solid timber without the expensive price tag. The technology used in the based layers also prevents the expansion and contractions that is normally associated with natural wood. It's one of the most popular and versatile products in the market due to its practicality, durability and diversity in timber grains and shades. Our engineered products are specifically designed and manufactured for the Australian climate.

Australian species Spotted Gum
